

ADVANCED MSK ULTRASOUND COURSE LEVEL 2 ANKLE | 23-24 NOVEMBER 2019 | ZAGREB

“Registration for our HQ advance Ankle course is open. We will have great lectures, and improve your skills in ankle ultrasound examination. This is also great opportunity to visit Croatia. The course will be held in English/Croatian and having experience with ultrasound is a pre-requisite. “

FACULTY: Robert Wonink, podiatry trainer | Zoran Filipović, trainer

ANKLE | 23-24 NOVEMBER 2019

This advanced skills based course focuses on MSK ultrasound of the ankle. The learning objectives of this course are: learning new scan positions, fine-tune your ultrasound examination skills and improve your anatomic knowledge of the ankle complex. We will not only have a look at normal anatomy, but also discuss about interesting pathology cases. This course is totally evidence based, and fantastic quality. It is a must-follow for all sonographers who work with ankle patients.

ROBERT WONINK

Podiatry Trainer

Robert studied podiatry at the Academy for Podiatry. He then further specialized as a podiatry teacher. In 1991 he started teaching anatomy of foot and ankle, biomechanics, pediatric podiatry and orthopedic shoe technology.

In 2004, Robert founded Podiatry Care Netherlands. In 2007 he specialized in rheumatism and ultrasonography. Since 2009, Robert has been teaching musculoskeletal ultrasound of the foot and ankle and he joined SonoSkills in 2018.

Since 2017, Robert holds a fellowship in the OMERACT FUSS RA Group in Leeds, UK. He is also a member of the Ultrasound section of the NVMBR (Dutch Association for Medical Imaging and Radiotherapy). In November 2018 he has published a research paper in the Journal of Rheumatology as co-author on the subject of Ultrasound of Subtalar Joint Synovitis in Patients with Rheumatoid Arthritis.

Since April 2011, Robert has been working as an ultrasonographer with Dr Van Dalen MD, she is an orthopedic surgeon specialized in foot and ankle in the outpatient clinic of Bergman Clinics, Naarden.

Robert Wonink is world known podiatry speaker on conferences, have published more than 50 publications and have huge experience in teaching and scanning of the ankle region on MSK ultrasound.

Topics:

- ④ M. tibialis anterior, m. extensor hallucis longus, m. extensor digitorum longus
- ④ Tarsal bones
- ④ Subcalcaneal fat chambers
- ④ Subcalcaneal compressibility index
- ④ Subcalcaneal bursa
- ④ Fascia plantaris, m. abductor hallucis, m. peroneus longus, m. flexor hallucis longus, m. flexor digitorum longus
- ④ Subcapital fat chambers, flexor tendon sheaths, plantar plates, sesamoid and intersesamoidal ligaments
- ④ Anatomy and pathology of the spring (Deltoid) ligament
- ④ MTP joints and cartilage, toes osseous
- ④ Morton neuroma, Mulder click
- ④ Anterior impingement, Synovitis grading, dynamic testing stability peroneals, tenosynovitis of the peroneals
- ④ Pathology of the tibialis posterior, Accessory navicular, tendinopathy and ruptures of the Achilles tendon, Haglund deformity
- ④ Fasciitis plantaris and fascial ruptures, Mb. Ledderhose, damage of fat chambers.
- ④ Metatarsal stress fractures, pathology of the sesamoids.
- ④ Ganglion cysts, Bursitis subsesamoidal, os trigonum.
- ④ Ligamentum talofibulare anterius, Plantar plate MTP-II

Location: Zagreb, CROATIA.

Price: 3.700,00 kn (€500,00)

Register: send an e-mail to info@sonoskills.hr with details.
